To whom it may concern.

I'm providing this testimony in OPPOSITION of HB-06848.

I have a personal reason to oppose this bill. This bill if passed would used to do more harm then good. This law will be used as a weapon in divorces.

I personally had a friend go through this. His ex-wife filed a temporary restraining order against him on the advice of her lawyer. Shortly afterwards, the police came looking for his firearms. Luckily he knew the law and refused to surrender this firearms. Shortly afterwards his wife dropped the TRO because it didn't work in her favor.

As a gun owner in our state, it is very much hard to gain access to our 2nd amendment rights, then it is to loose them. Stripping a gun owner if his firearms without even seeing a judge is blantantly against due process.

It would be much better if access to a judge was quicker. If there are protections in place for the accused gun owner to easily get his guns and ammo back without a fight from the local PD. That a measure be put in place allowing the accused once cleared of a false TRO to press charges against the accuser.

Again, I Oppose HB-06848.

Thank you for your time
